To Whom It May Concern:

I am writing this letter to commend DSC Painting on the outstanding workmanship and professional painting project they recently completed at our Rico Manufacturing facility.

The length of the project lasted approximately one month and included painting over 130,000 sq. ft. of manufacturing space, 20,000 sq. ft. of newly renovated office space and various other tasks within our manufacturing facility. Scott, the owner was extremely knowledgeable about what products to use to achieve the best results. Scott and his team were very professional and courteous while working amongst our employees during normal business hours. They were dependable and well trusted when working afterhours and having access to our entire facility.

I would highly recommend Scott and the DSC Painting Inc. team to perform any painting, patching and carpentry projects. If you have any questions, feel free to contact me.

Sincerely,

Steve Shuck

President

Rico Manufacturing
